# INTRODUCTION

The Northern Midlands Council is pleased to present its Annual Plan covering the period 1 July 2010 to 30 June 2011, as adopted on 19 July 2010.

The Annual Plan is consistent with Council's Strategic Plan and includes:

- ◆ a statement of the manner in which the council is to meet the goals and objectives of the strategic plan
- ◆ a summary of the estimates adopted
- ◆ a summary of the major strategies to be used in relation to its public health goals and objectives
- ◆ the plan for development and use of financial and human resources and assets
- ◆ the targets to be achieved over the next twelve months
- ◆ a statement of financial and other resources required to achieve the targets.

## NORTHERN MIDLANDS BACKGROUND

The Northern Midlands Council administers an area of 5,130 square kilometres. It supports a population of approximately 12,602 with major population centres including Longford, Evandale, Perth, Campbell Town, Cressy, Ross, Avoca and Rossarden.

It has a total of 6,736 properties with an Assessed Annual Value of \$106,095,756.

Council supplies urban stormwater drainage, roads, recreation and park facilities, waste management, building and environmental services as well as community services.

The municipal area is rich in agricultural resources, natural and built heritage and supports many businesses from small family-owned companies to multi-million dollar enterprises.

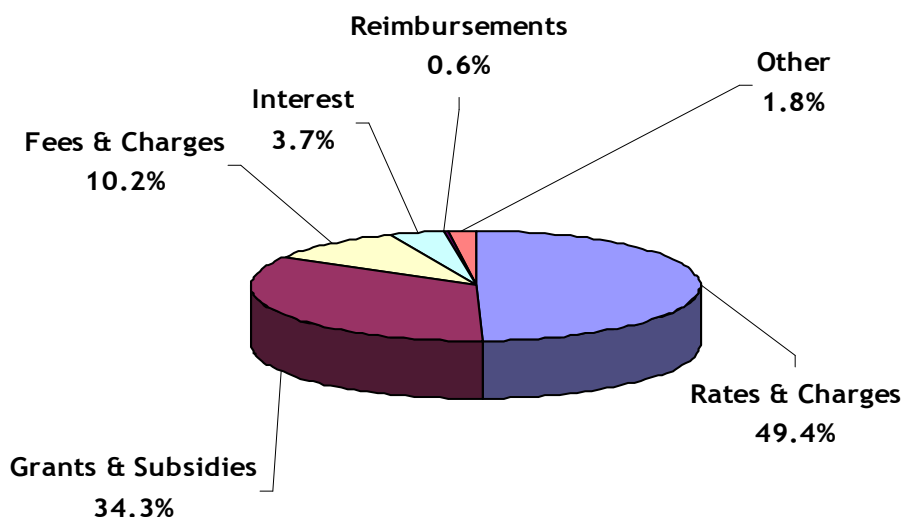

Council has a budgeted Operating Revenue in 2010/2011 of \$14.2 million; budgeted Operating Expenditure of \$14.2 million (including depreciation of \$4.3 million) and a large capital works budget of \$7.1 million.

Revenue sources are depicted in the table and graph below:

	<b>\$14,051,342</b>	<b>14,232,919</b>	<b>100.0</b>

Capital Expenditure represents approximately 41.5% of Council's total expenditure in 2010/2011, as illustrated in the following graph.

## Expenditure Breakdown 2010/2011

Council employs 65 equivalent fulltime staff and has budgeted employee costs in 2010/2011 of \$4 million compared to \$3.9 million the previous year.

Wages have been increased 3.4% in accordance with the EBA.

## RATING POLICIES

### Municipal Rating Values

◆ Land Value	\$ 1,062,026,200
◆ Capital Value	\$ 2,136,658,200
◆ Assessed Annual Value	\$ 106,095,756

### Payment of Rates

Rates can be paid in one sum within 30 days of the date of issue with a one and a half per cent (1½%) discount. Alternatively payment may be made by three (3) equal instalments.

Rates & Charges not paid before the due date will attract a daily interest charge of 0.0205% (7.5% per annum) in addition to a 5% penalty on all outstanding amounts as at 1 April 2011.

### Pension Remission

Residents are entitled to remission of rates & charges up to \$386 (or \$262 for pensioners that are also customers of Ben Lomond Water) for their principal place of residence provided they satisfy the requirements of the *Local Government (Rates and Charges Remissions) Amendment Act 1993*.

## General Rate

Using a differential basis the following rates have been adopted for the 2010/2011 year:

- i) 9.18 cents in the \$AAV for land used for the purposes of industrial purposes,
- ii) 7.60 cents in the \$AAV for land used for public purposes,
- iii) 7.31 cents in the \$AAV for land used for commercial purposes,
- iv) 7.20 cents in the \$AAV for land used for residential purposes,
- v) 6.99 cents in the \$AAV for land used for quarries and mining,
- vi) 6.48 cents in the \$AAV for land zoned rural used for residential,
- vii) 6.02 cents in the \$AAV for land zoned as of low density residential
- viii) 5.76 cents in the \$AAV for land used for sport and recreation,
- ix) 3.93 cents in the \$AAV for land used for primary production,
- x) 9.18 cents in the \$AAV for land not used (vacant) zoned industrial
- xi) 1.58 cents in the \$AAV for land not used (vacant) other than industrial and commercial vacant land,

In 2010/11 the minimum rates will increase by

- ◆ 3.65 percent to \$337 for land used for residential, commercial and industrial/quarry/mining purposes, and
- ◆ \$30 to \$140 for land used for rural, vacant, public purpose and sport and recreation purposes.

## Garbage

A refuse and recycling collection charge is applied to properties that are provided with a fortnightly roadside collection service.

- i) \$ 95 - 140 litre waste and 240 litre recycle MGB Service,
- ii) \$135 - 240 litre waste and 240 litre recycle MGB Service.

## Fire

All rateable properties within the Volunteer and General Land Districts are rated to fund the State Fire Commission. A rate in the dollar is levied according to the level of service in each district with a minimum levy of \$34 per property.

## Separate Rate - Longford Flood Levee

A separate rate for the purpose of funding the construction of a flood levee at Longford is levied in Area A at 0.954 cents in the \$AAV and in Area B at 0.135 cents in the \$AAV.

## RATE LEVEL

Council considered at length models for the introduction of differential rating for the first time in 2007-2008 to smooth/minimize shifts of the rate burden as a result of last revaluation. As a result, Council adopted a fully differential rating option to raise the same general rate revenue in each land use category as under the previous revaluation. In 2008-09 the system was refined by moving vacant industrial land to an industrial vacant land category. In 2009-10 the Council considered the introduction of a further land use category for Residential properties located in a Rural planning zone. The decision was to make the Rural Residential rate 90 percent of the Residential rate, increase the Low Density Residential rate by 2.5% above the index for other property classes and smooth the remaining shortfall of revenue over all classes. During 2010/11 small adjustments have been made to move land use category rate levels closer to the residential rate level.

In order to meet increased wages growth, maintain service levels, retain a robust capital works program, and increase funding for asset renewals the general rate revenue will be increased by 3.65 percent in 2010/11 raising a total rate of \$6,045,000 during the year. The total General Rate revenue raised for 2010/11 will include \$46,000 attributable to Development within the last 12 months and \$270,000 for the annual cost and service level adjustment.

Under the differential rating system the following rates are raised in the individual land use categories, and the negative/positive relationship is shown for each category in relation to the level of the Residential category.

Land Use	AAV \$	Rate Revenue \$	% above/below Residential
Commercial	5,492,920	402,062	1.5%
Industrial	4,749,628	439,976	27.5%
Rural	42,086,396	1,654,778	-45.5%
Low Density Residential	5,118,007	316,467	-16.5%
Public Purpose	4,961,223	377,573	6%
Quarry	238,832	16,882	-3%
Residential	32,983,435	2,374,371	0%
Rural Residential	5,009,788	326,738	-10%
Sport	476,762	27,939	-20%
Vacant	1,586,468	93,425	-78%
		6,030,211	

Since the Council was formed in April 1993, emphasis has been placed on identifying current and future needs of residents and creating a structure able to meet these requirements. Major staff changes have been implemented, administration infrastructure upgraded, plant and equipment rationalised and surplus land and buildings sold.

---

Despite additional responsibilities placed on Council by the Local Government Act and the Council playing a more active role in Economic Development and other 'social' issues, the General Rate has increased by only 43.65% over the last 17 years while inflation for this period has been 52.05% nationally and 54.4% in Hobart.

---

## COUNCIL'S STRATEGIC PLAN

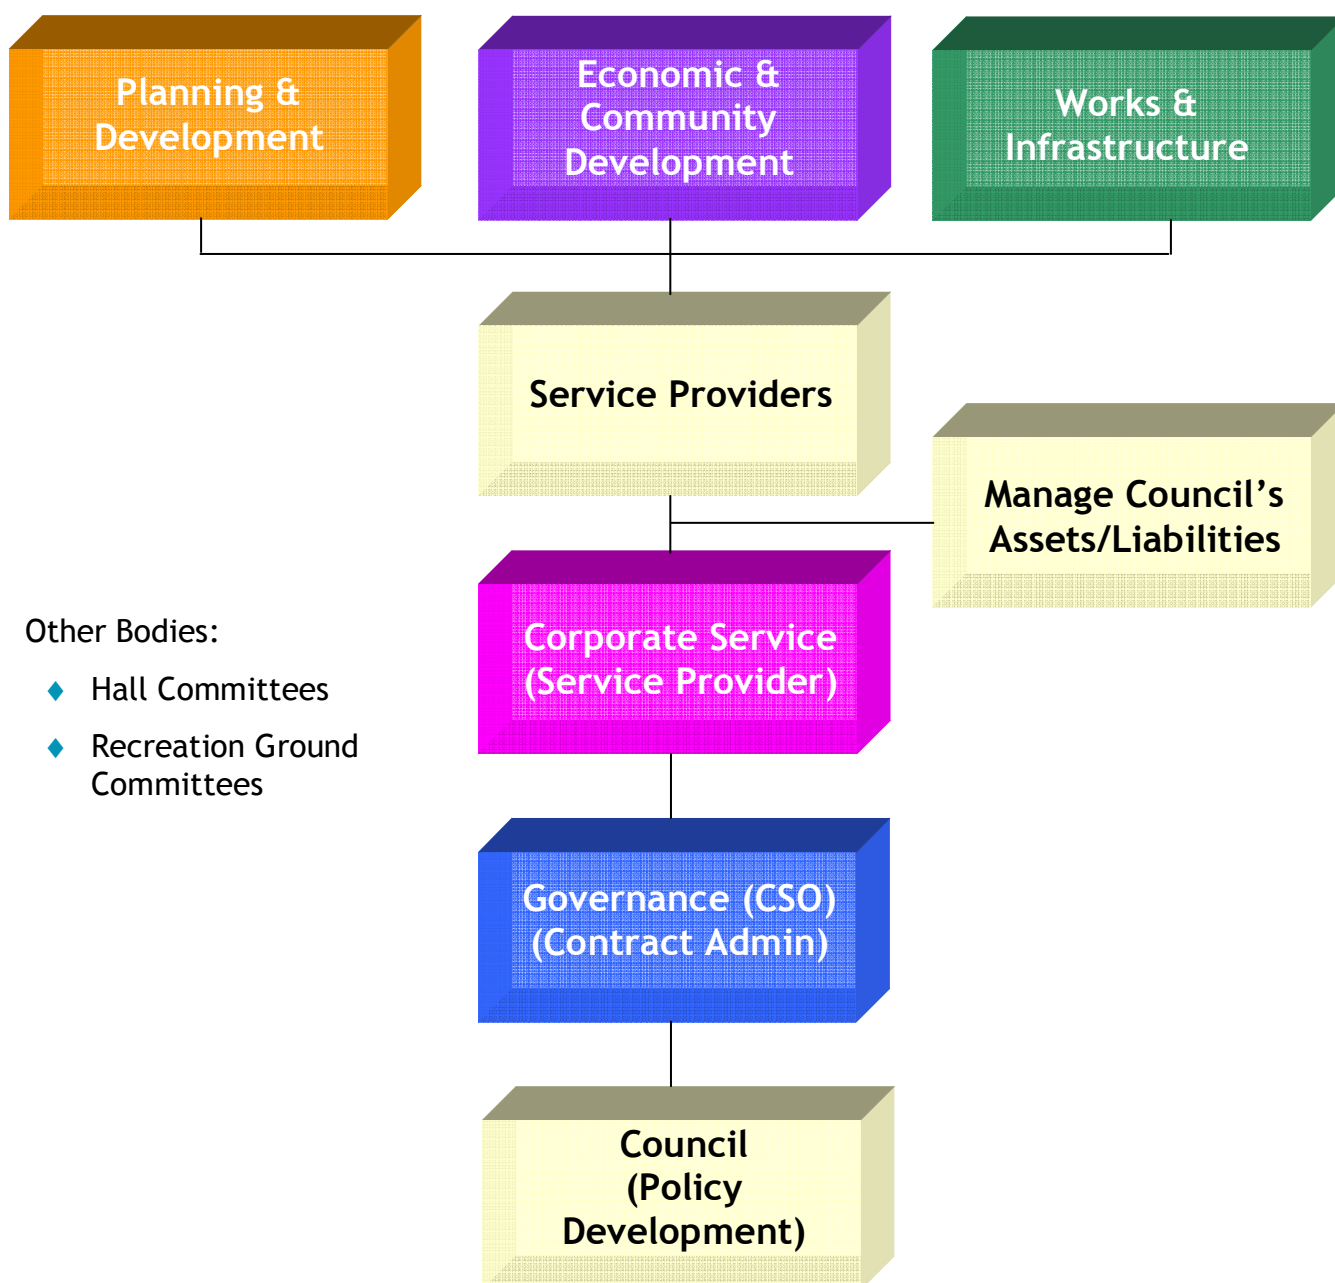

Council embarked on reviewing its strategic plan and planning scheme in the 2007/08 financial year and the outcome of this consultation with the community has seen the creation of a new Strategic Plan 2007-2017. This document will have a major bearing on the priorities and programs that Council undertakes into the future.

The major goals and objectives identified in the Council's 2007-2017 Strategic Plan have been incorporated into the Annual Plan and are also reflected in the Council's Annual Report to keep residents informed about achievements made against the Plan and to give them the chance to measure Council's performance and effectiveness.
