- ii) 9.50 cents in the \$AAV for land not used (vacant) zoned industrial

Fire

All rateable properties within the Volunteer and General Land Districts are rated to fund the State Fire Commission. A rate in the dollar is levied according to the level of service in each district with a minimum levy of \$38 per property.

RATE LEVEL

Council adopted a fully differential rating model in 2007/08 to raise the same general rate revenue in each land use category as under the previous revaluation. The rate model has been refined since then by moving vacant industrial land to an industrial vacant land category, the introduction of a further land use category for Residential properties located in a Rural planning zone, and minor adjustments moving land use category rate levels closer to the residential rate level.

In 2015/16 in order to meet increased wages growth, maintain service levels, and retain a robust capital works program, the general rate revenue will be increased by 2.48 percent raising a total rate of \$8,262,747 during the year. The total General Rate revenue raised for 2015/2016 includes \$40,000 attributable to development and rating policy changes within the last 12 months and \$210,000 for the annual cost and service level adjustment.

Under the differential rating system the following rates are raised in the individual land use categories, and the negative/positive relationship is shown for each category in relation to the level of the Residential category.

Land Use	2015/2016 Rates \$	Percentage Total Rates	% above/below Residential
Industrial	1,087,702	13.2%	38
Public Purpose	141,683	1.7%	18

Primary Production	1,959,775	23.8%	-32
Vacant Land	131,134	1.6%	-37
	\$8,222,276	100%	

Since the Council was formed in April 1993, emphasis has been placed on identifying current and future long term needs of residents and creating a structure able to meet these requirements. Major staff changes have been implemented, administration infrastructure upgraded, plant and equipment rationalised and surplus land and buildings sold.

Despite additional responsibilities placed on Council by the Local Government Act and the Council playing a more active role in Economic Development and other 'social' issues, the General Rate has increased generally in line with the national inflation rate over the last 22 year period.

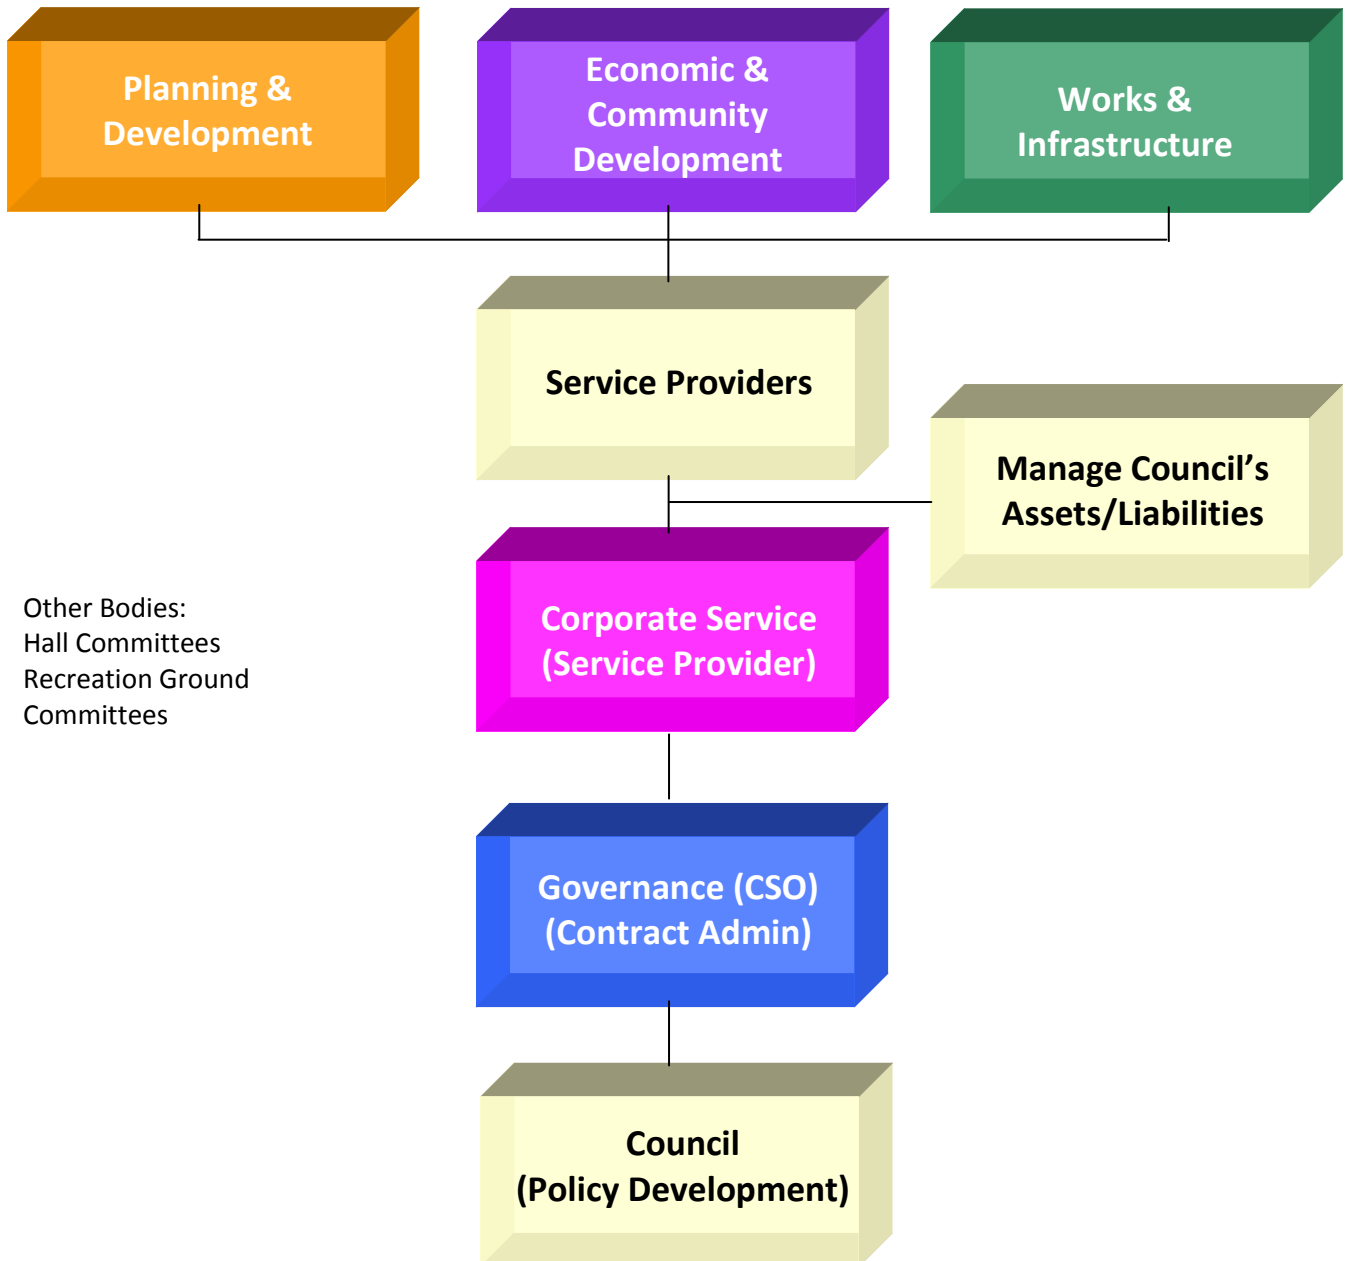

COUNCIL'S STRATEGIC PLAN

Council embarked on reviewing its strategic plan and planning scheme in the 2012 and the outcome of this consultation with the community has seen the creation of a revised Strategic Plan until period ending 2017. This document will have a major bearing on the priorities and programs that Council undertakes into the future.

The major goals and objectives identified in the Council's reviewed 2007/2017 Strategic Plan have been incorporated into the Annual Plan and are also reflected in the Council's Annual Report to keep residents informed about achievements made against the Plan and to give them the chance to measure Council's performance and effectiveness.
